2013 CABERNET SAUVIGNON

The 2013 ACRE Cabernet Sauvignon is a beautiful expression of the outstanding fruit harvested from the Yount Mill Vineyard Estate. This estate's 635 acres of organically farmed vineyard sit astride the Oakville and Yountville AVAs, adjacent to the prominent Yountville Hills, a location perfect for producing classic Napa Valley Cabernet Sauvignon.

The 2013 vintage was simply ideal. The *Napa Valley Vintner's* described it as, "Early, Even and Excellent." Robert Parker called it "one of the greatest in 37 years."

The even weather allowed us to harvest each block and varietal when it was ideally ripe beginning with the Oakville Cabernet Sauvignon on September 29th and finishing on October 17th with the final block of Yountville Cabernet Sauvignon. This gave us a wine not only generous in fruit, but firmly structured with great cellar potential.

TASTING NOTES

This is a classic Napa Valley Cabernet Sauvignon in every respect. Deep ruby to garnet in color, this wine offers a compelling range of aromas in lovely integration. Black cherry, blackberry, rose petal, vanilla, baking spices and cedar all compete for your attention. These same fruit characteristics blossom in the mouth, with hints of chocolate, black liquorish and spicy oak, all of which is carried across the palate with ample and supple tannins. The lively acidity contributes definition and to a long savory finish.

Delicious now, this wine has what it takes to demand long term space in your cellar. An ideal wine for any grilled cut of lamb or beef.
